

ENERGY CONSERVATION DAY- 2018

December 14, 2018, New Delhi

REPORT

Delhi State Centre of The Institution of Engineers (India) organized Energy Conservation Day - 2018 on December 14, 2018 at Institution's premises. On this occasion, Shri M A K P Singh, Member Secretary, Northern Power Regional Committee, Ministry of Power, Govt of India was the Chief Guest of the function.

Delivering the Welcome Address, Shri Dinesh Kumar, Chairman, The Institution of Engineers (India) in his address highlight the importance of energy consumption and its use in our day-to-day life. Further he stated that, it focuses our attention on significant issues facing the future of mankind with respect to energy.

Shri R K Yadav, Member, Delhi State Centre Committee introduce Shri M A K P Singh, Chief Guest of the function to the audience.

Chief Guest of the Function, **Shri M A K P Singh**, Member Secretary, Northern Power Regional Committee, Ministry of Power, Govt of India in his address apprised that Energy use is a major source of global warming, which has the potential of making the earth uninhabitable. As we all aware of the threatening fact that reserves of all conventional forms of energy are fast depleting. He stated that every day the human population across the world uses energy for leading a civilized life. These resources are the critical input of human development which comprises providing adequate food, shelter, clothing, water, sanitation, medication, schooling, transportation, industrial applications, access to information, etc. In short, energy affects all facets of activities related to everyday and modern life. Per capita, energy consumption is often considered an important indicator of development. As people and nation's progress, consumption of energy will increase.

Shri Jitendra Kr Sharma, Honorary Secretary, IEI-DSC coordinated the programme and proposed vote of thanks.

Nearly 60 members, guests and invitees attended the function.
